PROFESSIONAL SUMMARY

Junior HTML Developer at Maxval Technologies with hands-on experience in HTML5, CSS3, JavaScript and React.js. Builds responsive, user-friendly web interfaces and full-stack projects backed by MongoDB. Quality-focused, quick to learn production workflows, and a BSc IT graduate with a 9.30 CGPA.

EXPERIENCE

Junior HTML Developer
Sep 2026 - Present

Maxval Technologies | New Plans Team

- Promoted from intern to Junior HTML Developer.
- Handle web-related tasks and HTML content formatting within the New Plans team.
- Run quality checks and work within a professional frontend production workflow.

HTML Intern
May 2026 - Aug 2026

Maxval Technologies | New Plans Team

- Worked on web-related tasks, HTML content formatting and quality checking.
- Learned frontend workflow processes in a professional production environment.

PROJECTS

Buildstone - Construction Website

HTML5 | CSS3 | JavaScript | MongoDB

- Designed and developed a fully responsive construction company website using HTML, CSS and JavaScript.
- Built a "Get a Free Quote" form with JavaScript validation for reliable user input.
- Connected the quote form to a MongoDB Atlas database to store quote requests.

Travel Planner Web Application

React.js | Tailwind CSS | MongoDB | JavaScript

- Designed and developed a responsive web-based travel planner with user authentication and login.
- Implemented CRUD operations with MongoDB to manage user-specific travel plans.
- Created user-friendly forms with validation; identified and fixed UI and functional bugs.
